

NINGALOO BLOOMING

Second Installment

(Section 2.1)

Use 3 of the 2½" Blue (Fab1) strips and 3 of the 2½" Cream (Fab3) strips.

Sew together one Blue (Fab1) strip and one Cream (Fab3) strip as shown. Press seam behind the Blue (Fab1) fabric. Cross cut these sewn strips into 2½" units.

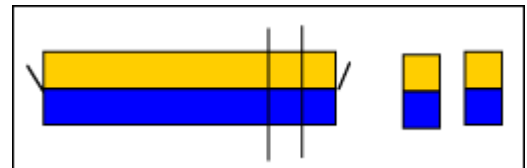

You need 40 of these finished units.

(Section 2.2)

Use 4 of the 2½" Gold (Fab4) strips and 4 of the 2½" Blue (Fab1) strips.

Sew together one Gold (Fab4) strip and one Blue (Fab1) strip as shown. Press seam behind the Gold (Fab4) fabric. Cross cut these sewn strips into 2½" units.

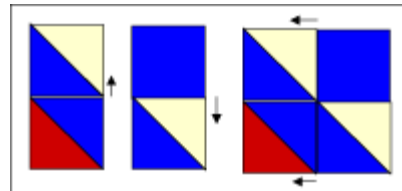

You need 52 of these finished units.

(Section 2.3)

Take 16 previously completed Blue (Fab1) and Red (Fab2) 2½" half square triangles *(Section 1.1)* and 32 previously completed Blue (Fab1) and Cream (Fab3) 2½" half square triangles *(Section 1.3)* and 16 x 2½" Blue (Fab1) squares.

Using the above fabrics make up the follow unit following the arrows for pressing instructions.

You need 16 of these finished units.

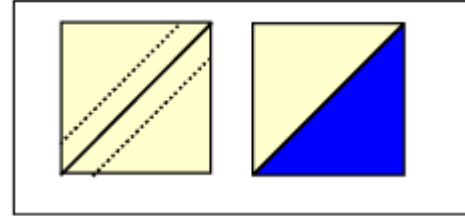

(Section 2.4)

Note new size. Take 18 of the 3½" Cream (Fab3) squares and 18 of the 3½" Blue (Fab1) squares and construct Half Square Triangle units using the diagram as your guide.

On the back of your Cream (Fab3) 3½" squares draw a diagonal line with a pencil. Place one Cream (Fab3) square on top of one Blue (Fab1) square (right sides together). Stitch ¼" either side of drawn line - cut on line and press open by pressing the seam behind the Blue (Fab1) fabric.

Trim to 3" half square triangles.

You need 36 of these finished units.

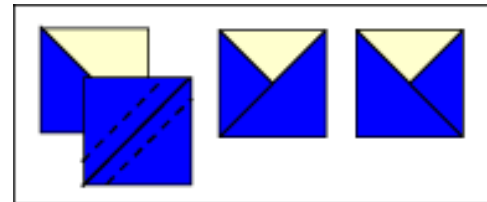

(Section 2.5)

Use 36 Blue (Fab1) 3" squares and all 36 of the 3" half square triangle units just completed *(Section 2.4)*.

Now you haven't quite finished with using the half square triangle technique! This time you have to turn those 3" half square triangles into Triple Triangle Units.

You will have 72 of these finished units.

Keep them in separate piles according to the direction of the half square blue section. Trim to 2½" unfinished using your 45 degree markings on your ruler to keep aligned and square.

(Section 2.6)

Use 16 left slant and 16 right slant of the above Triple Triangle units *(Section 2.5)* and 16 of the 2½" Blue (Fab1) squares and 16 Blue (Fab1) and Red (Fab2) half square triangles *(Section 1.1)*.

Make up 16 of the units shown in the diagram.
