

# September Block of the Month

## New Album 2 for NSQ

Block size: 12 ½" unfinished

All measurements include ¼" seam allowance

Kit contains: for 1 block:

- A: \*light or dark - 4 - 3 ½" squares
- B: \*light or dark - 4 - 3 ½" x 6 ½" rectangles
- C: \*light or dark - 2 - 3 7/8" squares
- C: \*light or dark - 1 - 4 ¾" square

\* the colors can be reversed in every other block or you can add sashing strips (cut 3 ½" w) and cornerstones (3 ½" square) to separate block (as I did).

Sewing Directions:

After cutting all the squares and rectangles out you will need to cut the C squares once on the diagonal to make the 4 triangles. Then you will sew the C triangles around the center D square (as shown above). Now measure to make sure that your sewing is accurate, as it should now measure the length of your B strip (6 ½" square). Then you will add the A squares to the ends of 2 of the B strips and the other 2 B strips will be sewn onto the center square (as shown above). Then add the last 2 A-B strips (as shown above). Block will measure 12 ½" unfinished.
